Dear Colleagues

It is our honor to host the 45th EABCT Congress. Israel hosted the first international CBT Congress in 1980 in Jerusalem. That Congress was a great success and no doubt stimulated the development of CBT in Israel.

Israel, which is the focus of much international interest, is a modern, diverse country with something for everyone. It is a multicultural country which has developed significantly over the last century, having absorbed great numbers of people from a wide variety of countries and cultures. We hope to share Israeli "startup nation" scientific advances via presentations of its cutting edge research. In addition, we will present cross-cultural research on therapy with diverse ethnic and religious groups, such as Arab-Israelis, Ethiopians, Russians, Orthodox Jews and others. We also plan panels/symposia on the potential of CBT regarding political negotiations, peace-making and conflict resolution, all this in addition to the common themes of EABCT congresses.

Our vision for the conference is expressed in the name of the conference: **CBT: A Road to Hope and Compassion for People in Conflict.**

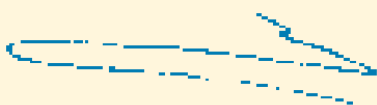

Jerusalem is a 3000 year old city, sacred to three major religions: Judaism, Christianity, and Islam. For centuries, Jerusalem has captivated the hearts and souls of people everywhere. Kings, prophets, poets, and believers – all have left their mark on the city. Indeed, Jerusalem cradles historical imprints of cultural heritage, archeology and religion, with sites like the Church of the Holy Sepulcher, Western Wall and Al-Aqsa Mosque and a plethora of archeological sites dating back thousands of years.

The uniqueness of Jerusalem lies in the meeting of past and present. For all of its historical and religious magnificence, it is also a very modern city. In addition to modern museums, concert halls, and art galleries, Jerusalem offers a wide range of cultural districts, contemporary shopping centers and attractive entertainment & nightlife spots.

Finally, Jerusalem is an ideal base for interesting excursions. Because Israel is a small country, participants and accompanying relatives and friends can – in less than an hour – reach the Mediterranean Sea, the Dead Sea, the historic Galilee or the fascinating desert. In fact, you will be able to tour most of the country in a few days.

ITA (ICBTA), Israel Cognitive & Behavior Therapies Association, was established 30 years ago and has been a member of the EABCT ever since.

The board of ITA and its members are honored by being given the chance to host the European Congress in Israel and enthusiastically look forward to contributing to its success. We are sure that you will experience an impressive, instructive and enjoyable 45th EABCT Congress.

Jerusalem, the unique city cherished by millions of people throughout the world, is a spiritual center of great interest and beauty.

Jerusalem the ancient... with numerous holy places and treasures that have drawn pilgrims and tourists throughout the ages.

Jerusalem has been the focus of mankind for more than 3,000 years. Sanctified by religion and tradition, Jerusalem is a city revered by the three monotheistic faiths - Judaism, Christianity and Islam.

Jerusalem the modern... a thriving city that offers both the mystery and magnificence of the

past and the luxury and efficiency of the 21st Century.

Jerusalem is the ideal city for conventions, congresses and international gatherings. It offers splendid facilities and a wide variety of tourist accommodations enhanced by a mild climate and beautiful landscape.

The city is also an ideal base for interesting excursions. In less than an hour one can reach the Mediterranean, Dead Sea, historic Galilee or the fascinating desert. Full or multiple-day excursions will take you to the sun-drenched glory of Eilat or the beautiful landscapes, nature reserves, waterfalls and religious sites of the Galilee and Golan.
